# Set learning free with outdoor Wi-Fi

**North Cave Primary School**, in East Yorkshire, have recently expanded their outdoor teaching space to include a wildlife garden and pond.

Double Click IT were asked to supply and install an outdoor Wi-Fi solution to enable the students to use their **personal learning devices** around the school grounds.

The solution included two high-power outdoor wireless access points, fitted with omnidirectional antennae.

☺ *Ideal for use with*

*personal learning devices*

*such as iPad, iPod Touch or other tablets, laptops and smart phones*
